Faculty of Education and Psychology

EVERYTHING THAT IS HUMAN

PSYCHOLOGY

BA

The aim of the programme is to train professionals in the theoretical foundations and basic methods of psychology. We give insight into the applied branches of its disciplines such as **possessing skills and techniques** used in order to measure, explore and develop individuals, groups or organizations through experiments.

Students will obtain an integrated knowledge of education, communication, socialization, **learning and human development**. We also provide modern knowledge and true sense of vocation that support further learning in any psychology MA.

STRENGTHS OF THE PROGRAMME

- ideal student-teacher ratio which enables a - tutorial-like atmosphere
